Articles and photos credited UNESCO may be reproduced and/or translated providing the credit line reads "Reproduced from the UNESCO Courier" and includes date and hyperlink. Photos without UNESCO credit require specific authorization.

Articles express the opinions of the authors and do not necessarily represent the opinions of UNESCO.

Photographs belonging to UNESCO may be reproduced freely. Photos must carry the following caption: © UNESCO and photographer's name. For high resolution, please contact the Photobank: photobank@unesco.org

Boundaries on maps do not imply official endorsement or acceptance by UNESCO or the United Nations of the countries and territories concerned.

Barium single-crystal fibres. Barium is mainly used in the petroleum industry, as well as medicine (x-rays of the digestive tract) and construction industry (anti-radiation heavy concrete).
